

3D MAMMOGRAPHY CONSENT FORM

Benefits of 3D Breast Tomosynthesis

- **Fewer patient recalls for additional imaging, resulting in less cost and reduced short-term anxiety.** Clinical studies have concluded 3D mammography significantly reduces the number of unnecessary recalls by up to 40% (or more).
- **Better cancer detection.** 3D mammography has shown to have higher cancer detection rates than traditional 2D mammography. Radiologist are now able to see “inside” the breast, layer by layer, to detect cancers earlier than ever. 3D mammography is beneficial for all patients, regardless of the density of their breast tissue or whether they have a family history of breast cancer.
- **No increased exam time or discomfort for a 3D exam versus a 2D exam.**
- **Annual routine screening 3D mammography is covered by a health benefit plan that provides coverage to a female who is 35 years of age or older per Texas State Law (Texas House Bill 1036).** This mandate applies to coverage under a group health benefit plan provided to residents of Texas regardless of whether the group policy or contract is delivered, issued for delivery, or renewed within or outside of the state.

Please select one of the following options regarding your mammogram:

YES, I would like to have a 3D mammogram. I understand there may be an additional cost for 3D services and final cost of my mammogram is dependent on my insurance coverage.

NO, I do not wish to have a 3D mammogram.
